Disclaimers

Warning
WARNING: This product may potentially trigger seizures for people with photosensitive epilepsy. If you suffer from this condition, please do not flight the aicraft at night.

Note
SIMULATION USE ONLY - DO NOT USE THIS DOCUMENTATION ON A REAL AIRCRAFT

Note
This product has been independently developed using open-source information and with This product is an artistic impression of the aircraft, protected under the 1st Amendment, and does not accurately represent (nor intends to represent) the performance, systems, design and/or features of any real-life aircraft.
The depiction of any weapon or vehicle in the simulator does not indicate affiliation, sponsorship or endorsement by any weapon or vehicle manufacturer.

Note
This product is a clear example of Derivative Work under Copyright Law. A derivative work is an expressive creation that includes major copyrightable elements of a first, previously created original work (the underlying work). **The derivative work becomes a second, separate work independent from the first.** The transformation, modification or adaptation of the work **must be substantial** to be original and thus protected by copyright.
A functional, virtual 3D representation of an aircraft created from an aggregate of publicly available sources, ranging from images (that by definition are Copyrighted by the Photographer), Fan Art and artistic creativity, loosely based on the design of a real aircraft but explicitly marketed as NO CORRELATION with the real-life creation and with ZERO involvement from manufacturer documentation or resources IS a perfect example of Derivative Work. For that reason, Miltech Simulations through its parent company, Vantech North America LLC claims ownership of the IP over the 3D Models included with M2K-C Product, and shall not be liable for claims of misuse of Intellectual Property that do not apply to a Derivative Work of this type.

Note
This product was exclusively developed and distributed for entertainment and educational purposes. Any commercial, training, professional, or military use of this product is strictly prohibited and not endorsed by Miltech Simulations, or any other company or individual related to this project.

Note
This product has been developed using the available resources. The scope is limited to “As realistic as practical”, and though some systems have been accurately developed, others have been greatly simplified. For that reason, the systems, performance, operations, and procedures shall be considered purely fictional and not representative (nor intends to accurately represent) the real counterpart.

This EULA grants you no rights to use such content. All the material contained in this SOFTWARE PRODUCT is exclusive copyright of Vantech and no part of any of the models contained in this package, or any other files within, in part or in whole, may be copied, re-distributed, disassembled, re-packaged or in any way be exploited for any commercial purpose without the express permission of Vantech. This SOFTWARE PRODUCT contains documentation that is provided only in electronic form, and you may print multiple copies of such electronic documentation. This product falls into "Fair Use" of any copyrighted or trademarked material from the aircraft manufacturer or operators, as the product does not, nor intends to, accurately resemble the real-life counterpart; and instead is a transformative work of digitalization and simplification of features existing in the real-life counterpart for entertainment and educational purposes. In United States Copyright Law, transformative use is defined as a characteristic that makes derivative work transcend, place in a new light, or provide a benefit not previously available, without affecting the market of the original work. This product fully complies with copyright law under fair use. This product was developed exclusively inspired by readily available materials. All trademarks and brand names are trademarks or registered trademarks of the respective owners and their use herein does not imply any association or endorsement by any third party.

7. Legal Jurisdiction: This EULA is governed by the laws of the state of Florida, United States.
8. Disclaimer: The Software Product is provided “as is,” and we do not guarantee the functionality of the Software Product or a particular result from the use of the Software Product. Neither Vantech, its members, managers, developers, employees, agents, nor its suppliers shall be liable to you for any loss of use, lost or inaccurate data, lost profits, failure of security mechanisms, interruption of business, delays or any direct, indirect, special, incidental, reliance or consequential damages of any kind, regardless of the form of action, whether in contract, tort (including negligence), strict liability or otherwise, even if informed of the possibility of such damages in advance. To the maximum extent permitted by applicable law, in no event shall Vantech be liable for any special, incidental, indirect, or consequential damages whatsoever (including, without limitation, damages for loss of business profits, business interruption, loss of business information, or any other pecuniary loss) arising out of the use of or inability to use the software product or the provision of or failure to provide support services, even if Vantech has been advised of the possibility of such damages. In no event does Vantech authorize you to use the Software Product in applications or systems where the Software Product's failure to perform can reasonably be expected to result in a physical injury, or in loss or endangerment of life. Any such use by you is entirely at your own risk, and you agree to hold Vantech and its members, employees, developers, and suppliers harmless from any claims or losses relating to such unauthorized use. You acknowledge that the Software Product has not been developed to meet your individual requirements and that it is therefore your responsibility to ensure that the facilities and functions of the Software as described in the Documentation meet your requirements.
