Miltech Mission Hub

Sharing and Installing Missions

For PC users; how to access your saved missions and paste shared missions.

> Caution
> Sharing Missions is only possible on PC.
> Unfortunately missions are currently not shareable on Xbox due to lack of access to the file system. However, we are actively working on a solution to send missions over-the-cloud for the Xbox crowd.

We know many of you are excited to **share and install mission packs** with friends or the community.\ And it’s super simple. Just copy and share a single file.

Missions are saved as .json files, which contain everything needed for the scenario.

PC Instructions

Choose the right folder for you sim, and navigate to it using Windows File Explorer:

MSFS2020 Steam
