Miltech Simulations MH60

Welcome to the MH60

In partnership with Blackbird Simulations

Caution
SIMULATION USE ONLY - DO NOT USE THIS DOCUMENTATION ON A REAL AIRCRAFT
An active internet connection is required on initial activation of the aircraft.

Caution
Blade Fold Disabled Temporarily
Due to several bugs affecting the Blade Fold feature, we've decided to temporarily disable it for the initial release and postpone its availability to a future update.

Note
Make sure your hardware is correctly configured for Helicopter Flight: Recommended Hardware Configuration
Keybinds Guide

Overview

At Miltech Simulations, we continue innovating. Following the success of our previous releases, we now present the result of over a year of development on one of the most versatile military helicopters ever built. The MH60 is ready for deployment in Microsoft Flight Simulator, in partnership with Blackbird Simulations.

Miltech Simulations MH60 is a multi-mission maritime helicopter, capable of executing complex operations such as anti-submarine warfare, search and rescue, medevac, and special operations. Its powerful engines, rugged airframe, and advanced avionics make it a dependable platform for even the most demanding scenarios. Designed with precision and realism in mind, the MH60 brings authentic mission capabilities to the virtual skies.

Get Started

We've put together some helpful guides for you to get set up with our product quickly and easily.
