Supercarrier Pro

FrenchCDG Carrier

> Caution
> Our FRENCHCDG ship is not, nor intends to be, an accurate depiction of any real-world ship, and only intends to simulate aspects of design of French-built aircraft carriers.

Description

The FrenchCDG is a carrier based on France's Nuclear Carrier Designs. As the only nuclear-powered aircraft carrier outside of the United States Navy, nuclear carriers are a key asset for France, providing it with a powerful and flexible tool for national defense, power projection, and as a deterrent in international waters.
